

### Set Up Instructions

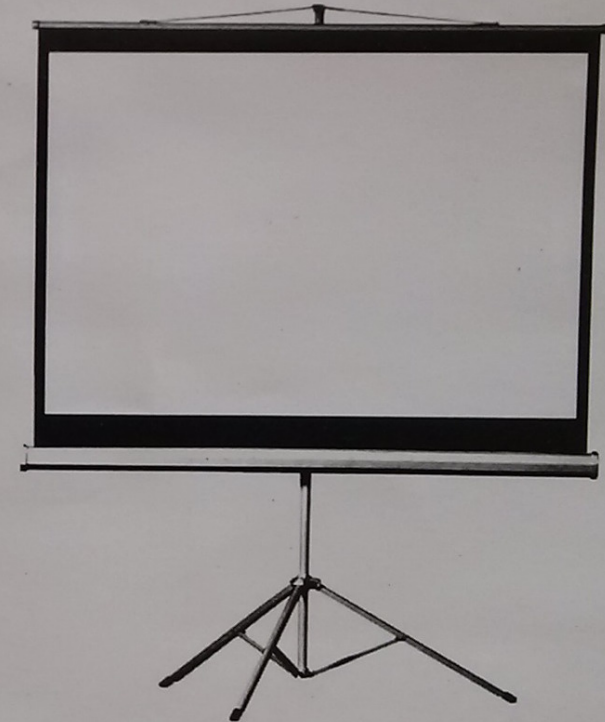

1. To set up the screen, lock the screen housing into the tripod stand's screen lock.
2. Raise tripod to the correct position by extending the shaft on the back of the tripod. To do this , open the latch to unlock the shaft and pull the shaft up until close in the suitable position
3. Position the top metal bar onto the top of the tripod.

### Transportation

1. Retract the tripod by closing the legs and retracting the shaft.
2. Turn the housing of the screen 90 degrees so that the housing is in line with the tripod, you can carry the tripod by using the handle
3. You can also carry the screen and tripod separately by detaching it from the tripod
