- All parts needed for operation are included
- Not intended for use in rain or damp conditions
- Diameter of blower is 18"
- Compatible with all hook and loop mount dancing man attachments
- Locking Roller Wheels: Yes

Comes with 18" diameter blower and power extension cord.

### Specifications:

Volt / Frequency:	110v/60hz
Power	1hp
Amp	11
CFM	5,000
Diameter	18 inches
Weight	42 lbs
Size (L x W x H)	23" x 21" x 18"
Speeds	3
Cord Length	8ft
Wheel	4 lockable rolling wheels

### Set Up

This blower is designed to inflate the Air Dancers® inflatable tube man attachment. The blower unit provides a constant air flow that effectively powers the Air Dancers® inflatable tube man for optimal movement and attention grabbing performance upon proper setup.

1. Only set up Air Dancers® inflatable tube man in location without obstructions or hazards. Set up blower away from trees, power lines, cars, pedestrians and adverse weather.
2. Ensure nothing on the ground or nearby can snag, puncture, or tear inflatable attachment.
3. Locate and test electrical outlet to ensure capacity and functionality.
4. Place blower on flat, stable, and dry surface. Put wheels into lock position.
5. Snuggly attach Air Dancers® inflatable tube man attachment around the hook and loop mounts on blower.
6. Plug blower in to a standard outlet (120v) with included 8ft electrical cord. Use only power sources with functioning GFCI breakers built in.
7. Turn on.
8. Adjust to desired speed setting.

**Warning.** Only set up blower in area clear of obstructions or hazards such as trees, power lines, telephone lines, buildings, cars, pedestrians, etc. Ensure blower is set up in a clear, open area to eliminate damaging or hazardous situations.

### Safety

- Do not operate blower in wet or damp conditions
- Do not expose unit to rain or snow
- Only operate on flat, stable, and dry surface
- Avoid rocks, gravel, sand, and other small objects being sucked into the air blower
- Do not move or carry blower while unit is on or operating
- Do not place fingers or other objects into blower
- Turn off and unplug blower when not in use
- Always operate unit with wheels attached to blower and in locked position
- Never cover/obstruct air vents
- Only operate from 120v North American standard outlet
- Do not use aftermarket parts
- Do not alter or modify in any way
- Never use in location where product could come in contact with people, cars, building, trees, power lines, etc.
- Ensure power source is grounded and test for capacity and functionality
- Use only power sources with functioning GFCI
- Do not use blower if showing damage
- Do not remove screens, vents, or grill of blower
- Do not allow children to operate unit or play near blower

**⚠ Warning.** Always operate with the wheels installed and in the locked position. This allows the blower to generate sufficient airflow to effectively power the Air Dancers® inflatable tube man as well as to properly cool the blower.

### Warranty

All LookOurWay® products are tested and inspected before shipping to ensure quality and safety. The LookOurWay® 18" Diameter Air Dancers® blower is covered by the LookOurWay® 1 year limited warranty from the original date of purchase. This warranty covers against workman and material defect.
